4. Impact of Change

As markets get more dynamic and technology evolves at ever-faster rates, we needed to make adaptability a core value in all we do.

Therefore, we have decided to re-organize our strategy and no longer supply Starter Packs that included a pre-defined specific set of Instruments and Consumables.

The previously discontinued parts are now **Obsolete** as stock has been depleted.

Please note that we are just obsoleting the "Starter Pack" concept, not the included and concerned Consumables & Instruments. These can still be ordered separately¹.
