Product Change Notice

Description	Product discontinuation notice
Creation Date	31st October 2022
Product Change Notice Number	2211
Revision	Revision A
This Product Change Notice supersedes the following documents:	N/A

1. Description and Reason for Change

We are writing to inform you that as part of our aim for continuous improvement, the list of product codes outlined in **section 5** are to be discontinued, effective immediately.

This change has become necessary as it is becoming increasingly difficult to maintain the quality and productivity levels due to ageing production line equipment and material supply chain. This decision has also been taken to best maximize our manufacturing efficiencies through the rationalization of low demand product lines – allowing for focus on the scheduling of our core and higher priority product lines.

2. Communication Distribution – Need to know list

Customer's Procurement	Sales Managers to inform
Customer's End User	Sales Managers to inform
Customer's Service Team	Sales Managers to inform
Azenta Life Sciences Service Team	Product Management to inform
Azenta Life Sciences Customer Care Team	Product Management to inform

3. Classification of Change

Customer Notification	Yes
Information Only	

Confidential: The information is confidential and is to be used only in connection with matters authorized by Azenta and no part of it is to be disclosed to others without prior written permission from Azenta.

DOCUMENT NUMBER: QMS101778	TITLE: Notice of Change Form	
REVISION: A DCO# DCO005185	DOCUMENT CLASSIFICATION: 04-Form, Template or Other	

4. Impact of Change

The product 4ti-0124 will be discontinued, effective immediately. This had initially been placed on a quality hold whilst manufacturing processes were reviewed, this discontinuation is a result of our internal review.

In addition, we are discontinuing our Collagen 1 & Poly-D-Lysin treated optically clear tissue culture plates outlined in **section 5**. Whilst these treated iterations are to be discontinued, non-treated, gamma treated, and tissue culture treated will continue to be available.

5. Affected Part Numbers

Item #	Description
4ti-0124	96 Round well Sealing Cap Mat, clear silicone, for use with 4ti-0125, 50 mats per case
4ti-0205	Optically Clear Tissue Culture Plate, 384 well, collagen 1 treated, with lid, 190um clear base, black frame, 24 plates and lids per case
4ti-0206	Optically Clear Tissue Culture Plate, 384 well, poly-d-lysin treated, with lid, 190um clear base, black frame, 24 plates and lids per case
4ti-0225	Optically Clear Tissue Culture Plate, 96 well, collagen 1 treated, with lid, 190um clear base, black frame, 24 plates and lids per case
4ti-0226	Optically Clear Tissue Culture Plate, 96 well, poly-d-lysin treated, with lid, 190um clear base, black frame, 24 plates and lids per case
4ti-0245	Optically Clear Tissue Culture Plate, 24 well, collagen 1 treated, with lid, 190um clear base, black frame, 24 plates and lids per case
4ti-0246	Optically Clear Tissue Culture Plate, 24 well, poly-d-lysin treated, with lid, 190um clear base, black frame, 24 plates and lids per case

Please note this affects all custom and treated products that contain this as a base part number.

6. Replacement Products

Discontinued Product #	Suggested alternative

7. Recommended Action

This discontinuation is effective immediately, all open orders will be cancelled, and alternative products recommended where available. We apologize for any inconvenience this may cause.

8. Specification of current & replacement products

Poly-D-Lysin and Collagen plate treatments will still be available for purchase as a custom (SP-coded) solution, for a quote please contact your local account or distribution manager. *Please note, custom coded solutions will be subject to minimum order quantities.*

9. Timeframe for implementation

Effective immediately – 31st October 2022.
